# FLAT STANLEY

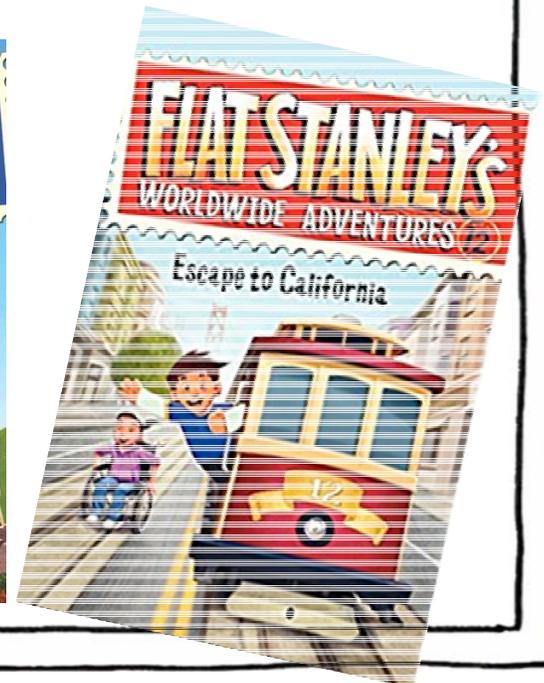

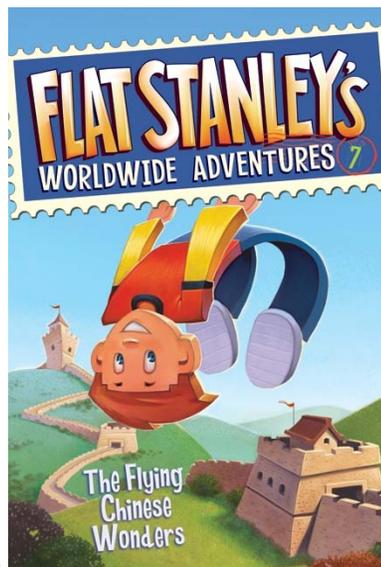

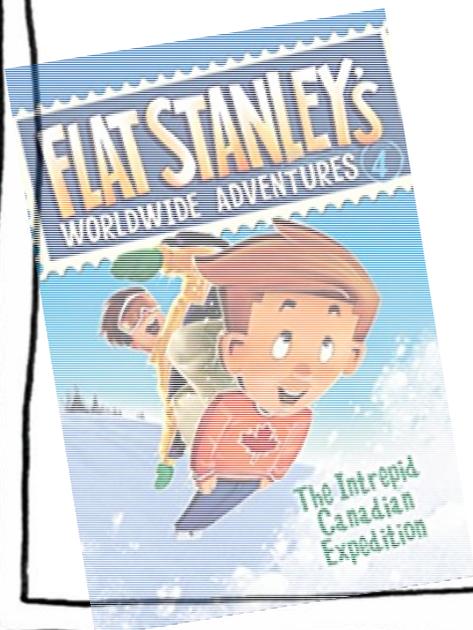

## Summer Reading

2nd Grade

Dear 2nd Grade Families,

Who is Flat Stanley, you may ask? He is a special character in a series of children's books written by Jeff Brown. Stanley was a regular boy until one night when a bulletin board fell on top of him while he was sleeping. Stanley was unharmed by the bulletin board, except for the fact that his body was flattened! Stanley lives his life as a normal child, except he has certain unusual abilities. He is able to slide underneath doors, fly like a kite, and be shipped in the mail to visit friends and family. Stanley has been all over the world and this is where our project comes into play!

**Over the next few weeks, you either need to take Flat Stanley on a trip with you, or mail him to friends of family out of town who can host Stanley for a few days and treat him to a good vacation. Please ask them to send you pictures or a postcard of the places Flat Stanley visits.**

The further Stanley travels, the more interesting it will be and your child will learn much more about the world around them.

Choose your family member or friend wisely because not everyone will want Flat Stanley to visit. We recommend that you contact them before you send him, check to see if it is okay and let them know he is on his way.

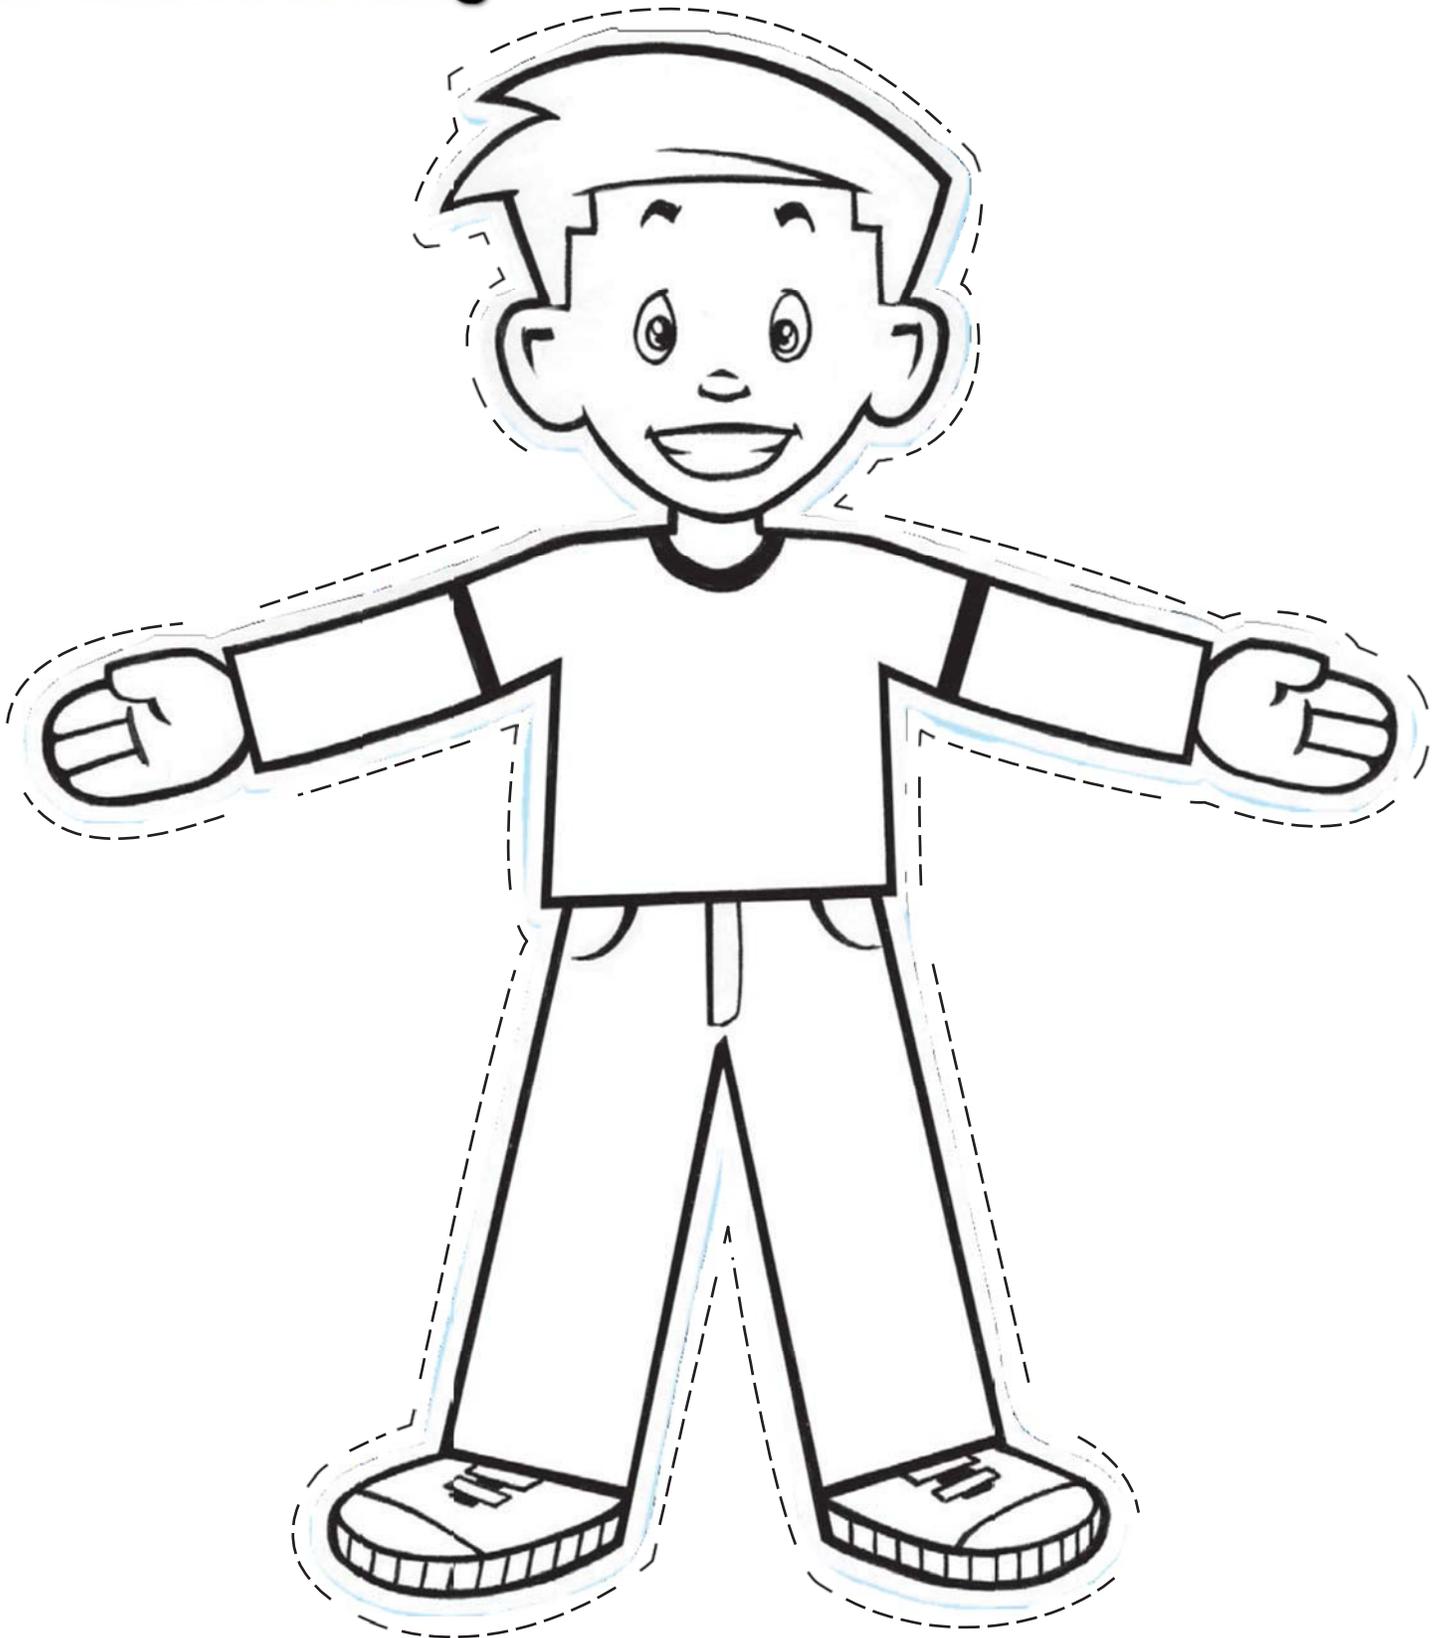

When Stanley returns from his vacation, your child needs to complete Flat Stanley's Reading Fair Project due the second Friday of the new school year. Please include pictures or postcards from the places that your child's Flat Stanley visits. You may send several Flat Stanleys out to different friends and family members.

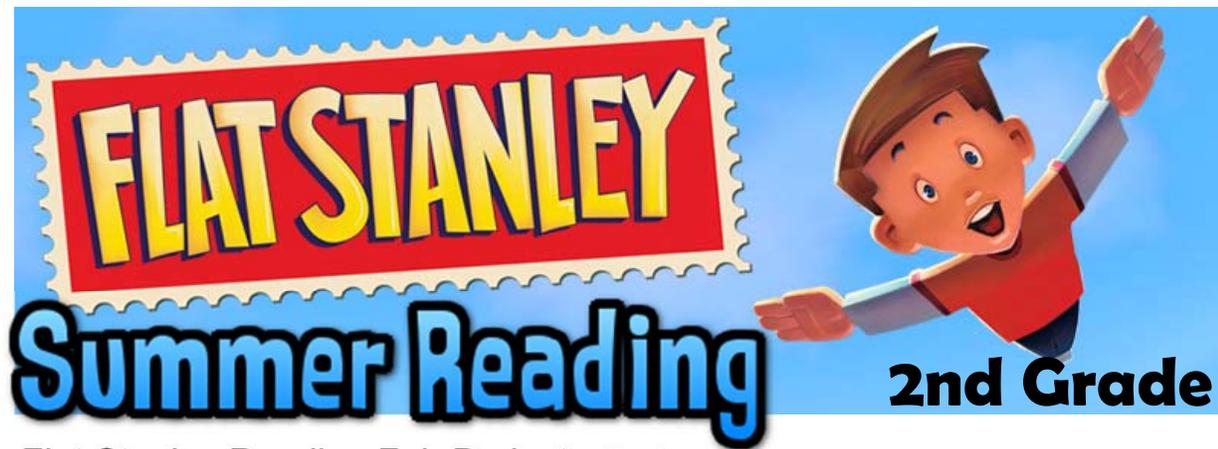

Happy Travels!
